EDUCATION

University of Waterloo

Honours Software Engineering, Co-op (Incoming)

Waterloo, ON

2026-2031

PROJECTS

IWKids - Mobile App | *React Native, JavaScript, Expo, Git, OpenAI API* [↗](#)

Apr 2025 – May 2025

- Developed an AI-powered mobile app to help families navigate emergency room visits at the IWK Hospital in Halifax, NS
- Integrated OpenAI API to provide conversational guidance and automate user support workflows
- Designed and implemented a cross-platform React Native interface designed for iOS and Android
- Placed 2nd at the Atlantic Canada AI Summit Youth AI Pitch Competition for presenting the application

Bay View High School - Mobile App | *React Native, JavaScript, Expo, Git* [↗](#)

Jul 2024 – Sep 2024

- Developed a React Native mobile application providing students access to school announcements, events, and resources
- Implemented responsive UI components and cross-platform functionality for iOS and Android
- Built application workflows using Expo to streamline development, testing, and iteration

Ben Eater's 6502 Project | *Python, Assembly* [↗](#)

Apr 2024 – Jul 2024

- A collection of hardware bread-boarding project surrounding the 6502 CPU, inspired by [Ben Eater](#)
- Programmed low-level routines in Assembly to explore CPU architecture, memory operations, and instruction execution

CoinDeno | *React.js, React Native, REST, Git, Firebase, CoinGecko APIs* [↗](#)

Aug 2021 – Sep 2022

- Developed a cryptocurrency portfolio tracker using React.js and Firebase with CoinGecko API integration for real-time market data
- Implemented user authentication using Google OAuth and Firebase Authentication
- Built and released a React Native mobile application supporting Android and iOS platforms
- Maintained application releases through iterative deployment workflows

EXPERIENCE

Stanford University's Code in Place - Section Lead

Apr 2025, Apr 2026

- Led weekly Python instruction sessions for a cohort of 15 learners in Stanford's global computer science education initiative
- Mentored students through debugging, assignments, and programming concepts while fostering an inclusive learning environment
- Collaborated with Stanford faculty and global volunteers to deliver accessible CS education

Nova Scotia Secondary School Students' Association - IT Coordinator

Apr 2025 – Jun 2026

- Managed digital infrastructure across Microsoft 365, Google Workspace, Moodle, WordPress, and Canva platforms
- Handled user account lifecycle management and technical support through NSSSA helpdesk workflows
- Led redesign and modernization of NSSSA's website, improving accessibility and information flow for students and staff

Student Council Executive & Tech Club President

Sep 2023 – Jun 2026

- Led student initiatives including events, fundraisers, technology workshops, and hands-on projects
- Grew Technology Club membership from 3-4 to 30+ members with 20+ weekly attendees through expanded programming
- Mentored students in technical skills while managing club operations and stakeholder collaboration

SKILLS

Languages: Python, C++, JavaScript, SQL

Frameworks: React, React Native, Node.js, HTML, CSS/SCSS

Tools: Firebase, Cloudflare, Netlify, Git, GitHub

Operating Systems: Linux, Windows, MacOS
